**DIVISION OF
OIL, GAS & MINING**

Mr. James W. Smith, Jr.
Coordinator of Mined Land Development
Utah Natural Resources & Energy
Oil, Gas and Mining
4241 State Office Building
Salt Lake City, Utah 84114

Dear Mr. Smith:

We are in receipt of your letter dated March 10, 1982, regarding the Annual Progress Report for the Cedar City Operation.

During the year of 1981, and todate in 1982, there has been no mining accomplished at Iron Springs. In January and February of 1981 we did some mining at the Comstock, which is under contract to CF&I Steel Corporation. This mining and stripping took place on CF&I's property and they are responsible for reporting and the associated reclamation on their own property.

Essentially, there has been no diversion from the two reports sent to the State last year, namely the report on reclamation activities, dated October 29, 1980, and a memo of March 11, 1981 on notification of the operation's being suspended (copies attached). for an indefinite period of time.

Yours truly

Y. F. Jones

Mr. Ron Daniels, Coordinator
Mined Land Development
STATE OF UTAH
Div. of Oil, Gas & Mining
1588 West North Temple
Salt Lake City, Utah 84116

Dear Ron:

On April 29, 1981 Tom Tetting of your office made a field trip to our operation to inspect the completed reclamation in conjunction with the completion and shutdown of the Iron Springs operation. A copy of my field trip report to the file is attached.

The work described in items 6 and 7 of this report, which Tom addressed, have been completed and photos of same are included.

As we indicated in our letter of October, 1980, we would now like to receive a written release from the Division of Oil, Gas & Mining, for all reclamation, other than the plant and office site, that have been associated with the Iron Springs operation.

Sincerely

Y. F. Jones
Manager

Subject: Reclamation at Utah International
Inc.'s Cedar City Operations

Dear Mr. Daniels:

Utah International has completed its contract with U. S. Steel for iron ore from Iron Springs. The Iron Springs plant has ceased operations with the exception of occasional shipments from the remaining stockpiles. Portions of the facilities are being dismantled, but the majority could remain for some time.

All of the pits, dumps, roads, stockpiling areas, and alluvial area associated with Iron Springs have been reclaimed according to our June 1977 Mining and Reclamation Plan". (See attached Reclamation Summary.) The remaining areas, such as the Iron Springs plant and tailings pond will be completed at a later date.

Utah International Inc. is desirous of receiving a release from the Utah Division of Oil, Gas, and Mining, for the areas completed that are acceptable to the Division. The attached Reclamation Summary gives an idea of work completed but Utah International Inc. extends an invitation to the Division for a visit to Iron Springs to inspect the completed areas.

Thank you for your consideration of this matter.

Yours truly

Y. F. Jones
Manager
